

## TIME FOR AN UPDATE

Rowie Espina is one of the three children sponsored through 'Chalice' and supported by the generous donations to our "Pot of Gold". From 'Chalice', which is a Catholic sponsored programme, we received a status report and a letter from Rowie. A translator is no longer needed as Rowie can now write a letter in English! Rowie is 11 years old, lives in a small house with his parents; his favorite sport is badminton and he wants to become a teacher.

Dear: Our Lady of Perpetual Help Parish

First and foremost I want to greet you and your family a good day. I am hoping that you are always in a good condition. If you are going to ask about me, I am okay and happy together with my family.

You know I really want to thank you from the bottom of my heart because I can still continue my studies with your help. Last June I received school supplies, school and P.E. uniform. Thank you so much for that. Then last December me and my family received groceries and that groceries made our Christmas come true.

Thank you very much for all your support with me. Don't worry because I will strive more so than I can finish on my studies. I already graduated in elementary with honor and next school year I will be in high school. Thank you so much for the financial support.

Thank you and may God bless you

Love and prayer

Rowie A. Espiña
